THE DONEE HEREBY AGREES TO THE FOLLOWING TERMS AND CONDITIONS:

I. TERMS AND CONDITIONS APPLICABLE TO ALL PROPERTY, REGARDLESS OF ACQUISITION COST, DONATED FOR CIVIL DEFENSE PURPOSES:

Dear Mr. Combs:

On August 9, 1963, an inspection was made of the unincorporated townsite of Madison, California, which is legally discribed as follows:

> Beginning at the Southwest Corner of Block 4, of the Plat of the Town of Madison, as shown in the Office of the Recorder of Yolo County, California, in Book V of Deeds, Page 417, thence from said point of beginning S79° 45'E, 1440.00 feet along the northerly Right-of-way line of Rudolph Street to a point on the easterly Right-of-way line of Railroad Street, thence S10° 15'W, 1392.00 feet to a point where the easterly Right-of-way line of Railroad Street intersects the easterly projection of the Southerly Right-of-way line of Hurlbut Street, thence N79° 45'W, 1500.00 feet along the Southerly line of Hurlbut Street to the westerly Right-of-way line of Tutt Street, thence N10° 15'E, 1392.00 feet to a point on the westerly line of Tutt Street, thence S79° 45'E, 60.00 feet to the point of beginning.

As on previous occasions the following conditions were observed:

1. Sewage was overflowing areas throughout the townsite in an estimated twelve places in violation of Section 4476, 5410g and 5411 of the Health and Safety Code of the State of California as well as Ordinance #374 of the County of Yolo.

2. The townsite is supplied with water from a well which is shallow and thus easily subject to sewage contamination.

3. The soil in the area is designated on the soil map as Capay clay, an especially heavy and impervious clay.

In addition to these findings it is known that the water table in the area is excessively high and in years of heavy rainfall it may raise almost to the surface. Individual building lots, in general, are only twenty-five (25) feet in width thus making it necessary that several be available for the building of a home. This usually results in very small areas for disposal of sewage effluents. As a result of the type of soil and the limited area for disposal, septic tanks function poorly if at all.

As Yolo County Health Officer, I therefore recommend as a necessary health measure that the Honorable Board of Supervisors institute proceedings under appropriate statutory provision for the construction of sanitary sewers for the aforesaid area to abate the unsanitary conditions.

This report and recommendation is submitted pursuant to Section 2808 of the Streets and Highways Code of the State of California.

Sincerely,

Herbert Bauer

RESOLUTION NO. 63-132

RESOLUTION URGING THE ADOPTION BY THE CONGRESS OF THE UNITED STATES OF S.1275, 88th CONGRESS, 1st SESSION, REGARDING FEDERAL-STATE CONFLICT OVER WATER RIGHTS

WHEREAS, this Board is of the opinion that a Federal-State conflict exists with respect to water rights in the western states; and

WHEREAS, this Board believes that said conflict is prejudicing the rights of the water users of this state and is creating uncertainties in the law which will prevent the most beneficial use of the water resources of this state and nation; and

WHEREAS, this Board has been advised and believes that the legal theories proposed and advanced by attorneys representing the United States Government in certain recent legal disputes would be most harmful to local interests and to the nation as a whole if accepted as law; and

WHEREAS, this Board has been advised and believes that the holdings in the so-called "Felton Dam" case (Federal Power Commission vs. Oregon, 349 U. S. 435 (1955)) and the so-called "Hawthorne" Case (Nevada vs. United States, 165 Fed. Supp. 600 (D. Nev. 1958), affirmed on other grounds, 279F 2d 699 (9 Cr.1960)) represents a departure from the traditional view which recognizes local control over water resources and, also, that the holdings in these cases constitute a threat to the most beneficial and reasonable use of local water resources; and

WHEREAS, this Board believes that water law is real property law, and that real property law is a matter for local, not federal, control; and

WHEREAS, the Honorable Thomas H. Kuchel, for himself, the Honorable Len B. Jordan, of Idaho, and the Honorable Frank E. Moss

of Utah, introduced S.1275 in the 88th Congress, 1st session, which bill will do much to resolve the conflict which exists between the federal government and the states with respect to water rights in the western states;

NOW, THEREFORE, BE IT RESOLVED, that the Board of Supervisors of Yolo County, State of California, hereby expresses its support for S.1275 and urges its adoption by the Congress; and

BE IT FURTHER RESOLVED that the Clerk of this Board of Supervisors is authorized and directed to send copies of this Resolution, duly certified by said Clerk of this Board, to the Honorable Thomas H. Kuchel, the Honorable Clair Engle, and the Honorable Robert Leggett.

AMENDMENT TO CONTRACT BETWEEN THE
BOARD OF ADMINISTRATION
STATE EMPLOYEES' RETIREMENT SYSTEM
AND THE

BOARD OF SUPERVISORS

OF THE

COUNTY OF YOLO

The Board of Administration, State Employees' Retirement System, hereinafter referred to as Board, and the Board of Supervisors of the County of Yolo, hereinafter referred to as Public Agency, having entered into a contract under date of November 5, 1959, effective January 1, 1960, and as amended effective January 1, 1961, which provides for participation of Public Agency in said System, Board and Public Agency hereby agree as follows:

A. Paragraphs 3 through 13 are hereby stricken from said contract as executed effective January 1, 1960, and as amended effective January 1, 1961, and are hereby replaced by the following paragraphs numbered 3 through 13 inclusive:

3. Employees of Public Agency in the following classes and groups shall become members of said Retirement System except such in each such class and group as are excluded by law or this agreement:

a. County Peace Officers (herein referred to as local safety members);

b. Employees other than local safety members (herein referred to as miscellaneous members);

In addition to the employees excluded from membership by said Retirement Law, the following employees shall not become members of the Retirement System:

NO ADDITIONAL EXCLUSIONS

4. All words and terms used herein which are defined in the State Employees' Retirement Law shall have the meaning as defined therein unless otherwise specifically provided. "Normal retirement age" shall mean age 60 for miscellaneous members and age 60 for local safety members. "OASDI" shall mean Old-Age, Survivors, and Disability Insurance provisions of the Social Security Act.

5. 1/60 shall be the fraction of final compensation to be provided for each year of credited current service as a miscellaneous member upon retirement at normal retirement age, subject, however, to the modification set forth in Paragraph 6 below.

6. The fraction of final compensation specified in paragraph 5 shall be reduced in the case of each member whose position is covered by Federal Social Security to 1/90 for application to that part of final compensation which does not exceed the monthly equivalent of the maximum annual amount included in "wages" under Section 209, Social Security Act, it being recognized that such maximum may be changed from time to time by amendment to said Social Security Act and intended that any such change subsequent to the effective date of this contract shall not affect the amount of any retirement allowance based on service during any period prior to the date of such change.

7. Benefits on account of each year of prior service shall be as provided in Section 21251 except that the fraction of final compensation otherwise provided therein shall be reduced by 1/3 for application to the first $400 per month of final compensation in the case of each member whose position is covered by Federal Social Security.

8. The retirement benefits payable upon retirement for ordinary disability shall not be affected by the modification provided in Paragraph 6 of this contract except that for the purposes of the limit on any such allowance imposed under Section 21297, Government Code, allowances for retirement for service shall be computed according to the modified formula set out in Paragraph 6 of the contract. All other provisions of this contract shall be fully applicable to the computation of allowances upon retirement for disability.

9. Contributions for miscellaneous members shall be subject to Section 20601.5 providing for a reduction in rates of contribution as it relates to that part of the monthly compensation which does not exceed the monthly equivalent of the maximum annual amount included in "wages" under Section 209, Social Security Act, and 100 percent of such rate which applies to the remainder of the monthly compensation. Miscellaneous members whose positions are excluded from Social Security coverage shall contribute in accordance with Section 20601.

10. The following provisions of the State Employees' Retirement Law which apply only upon election of a contracting agency shall apply to the Public Agency and its employees:

   a. Sections 21251.1 and 21253 (providing for a guaranteed percentage of final compensation for each year of current and prior service).

   b. Section 21252.5 (providing for a guaranteed percentage of final compensation for each year of current service for local safety members and a temporary annuity to age 65).

   c. Section 20024.01 (defining "final compensation" on the basis of a period of three consecutive years).

   d. Section 21258(b) (providing a minimum retirement allowance of $780.00 per year under certain conditions).

   e. Section 21367.51 (providing a $600.00 death benefit upon death after retirement).

EXHIBIT NO. 1

f. Section 20025 (providing for inclusion of compensation without limit in computations where compensation is a factor).

11. Public Agency shall contribute to said Retirement System as follows:

a. 2.767 percent of total salaries paid monthly to members until December 31, 1979 on account of the liability for prior service benefits.

b. 5.144 percent of total salaries paid by Public Agency each month to its employees who are and hereafter become members of said Retirement System, provided that only salary earned as members of said System shall be included in said total salaries.

c. A reasonable amount per annum, as fixed by Board to cover the costs of administering said System as it affects the employees of Public Agency, not including the costs of special valuations or of the periodical investigation and valuation required by law, provided that said amount shall be determined on the basis of the number of employees of Public Agency who are reported as members on the payroll covering January 1 of each year, or with respect to the first year of participation, on the effective date of said participation.

d. A reasonable amount as fixed by the Board, payable in one installment as the occasions arise, to cover costs of special valuations on account of employees of Public Agency, and costs of the periodical investigation and valuation required by law.

12. Contributions required of Public Agency and its employees shall be subject to adjustment by Board on account of amendments to the State Employees' Retirement Law, and on account of the experience under the Retirement System, as determined by the periodical investigation and valuation required by said Retirement Law.

13. Contributions required of Public Agency and its employees shall be paid by Public Agency to the Retirement System within thirty days after the end of the period to which said contributions refer. If more or less than the correct amount of contributions are paid for any period, proper adjustment shall be made in connection with subsequent remittances, or adjustments on account of errors in contributions required of any employee may be made by direct cash payments between the employee and Board. Payments by Public Agency to Board may be made in the form of warrants, bank checks, bank drafts, certified checks, money orders, or cash.

B. This amendment shall be attached to said contract and shall become effective on the _____ day of _____.

EXHIBIT B

SUMMARY OF MAJOR PROVISIONS

1/90-1/60 at 60 Retirement Program
Local Miscellaneous Members

COMPULSORY MEMBERSHIP

Membership is compulsory for all full time employees, other than elected officials, on the first of the month following employment. Those employed on less than a full time basis become members on the first of the month following 87 hours of employment in a month.

SERVICE RETIREMENT

The earliest retirement age is 55; the normal retirement age is 60; and the compulsory retirement age is 70. An employee may retire any time between these ages, 55 and 70, provided he meets the minimum requirements that he either have more than $500.00 of accumulated contributions, or 20 years of service, or have attained the compulsory retirement age of 70.

At normal retirement age 60, the unmodified allowance is 1/90 of that portion of "final compensation" up to and including the monthly equivalent of the maximum annual amount included in wages under Social Security, and 1/60 of that portion of "final compensation" as is in excess of that amount, for each year of credited service. If retirement is deferred beyond age 60, the percentages of "final compensation" for each year of service are increased actuarially up to age 65 but not beyond. If retirement is earlier than age 60, the percentages of "final compensation" for each year of service are actuarially decreased.

"Final compensation" is average monthly salary (full time rate) earned during that period of three consecutive years of highest earnings, excluding overtime compensation.

A minimum service retirement allowance of $60.00 per month is guaranteed upon compulsory retirement with credit for prior service, or upon retirement at age 65 with twenty years of service.

DISABILITY RETIREMENT

An employee becoming disabled to the extent that he is incapable of performing his duties shall be eligible for disability retirment provided he has at least $500 of accumulated contributions, or at least 10 years of service. The monthly retirement allowance is 1.50% as "final compensation" for each year of service,

with a minimum guarantee of 25% of final compensation for most employees who have rendered at least 10 years of service. The disability retirement allowance shall under no circumstances exceed the service retirement allowance payable upon retirement for service at age 60.

DEATH BENEFITS

The death benefit, where death occurs before retirement, consists of a refund of the member's accumulated contributions (including interest earned), plus an additional benefit equal to six months' salary where he has been a member for six years or more. For those who have been a member for less than six years, the additional benefit is one month's salary for each year of membership.

The death benefit, where death occurs after retirement, is $400.

TERMINATION OF EMPLOYMENT

Upon termination of employment, an employee may either leave his contributions with the System and receive, upon attaining retirement age, the retirement benefit he has earned, or he may withdraw his contributions (plus interest), thus terminating his membership in the System and receiving no retirement benefits. Except, (1) a member with $500 or less in accumulated contributions and less than 20 years of service shall not have the privilege of leaving his contributions with the System, but shall automatically have his contributions, plus interest, refunded upon termination of employment, and (2) a member who is transferring to employment with another agency which is covered under the System shall not have the right of withdrawing his accumulated contributions.

EMPLOYER CONTRIBUTIONS

Each member makes monthly contributions to the System which are deducted from his salary. The rate of contribution (percentage of pay) depends upon a member's sex and age (nearest birthday) on the date of becoming a member and varies from a minimum of 3.52% to a maximum of less than 11.56%.

The employer also contributes toward the cost of the benefits. The amount contributed by the employer for current service benefits will, on the average, exceed the cost to the employee. In addition, the employer bears the entire cost of prior service benefits.

All contribution rates are subject to revision by the Board of Administration.

NOTES:—1. The purposes must correspond in every particular with those stated in the election notice.

2. Insert amount of TOTAL authorized issue.

SPECIAL NOTES:

Education Code Section 21809 provides that the bonds shall be signed by the chairman of the board of supervisors, "or by such other member thereof as the board of supervisors shall by resolution adopted by a four-fifths vote of all its members, authorize and designate for that purpose". If it is desired to have the bonds signed by such member rather than the chairman, then the Resolution and Order, and the bond form, should be changed accordingly, and the Resolution and Order must be adopted by such four-fifths vote.

Education Code Section 22051 provides for redemption of school bonds prior to their maturity at the option of the governing board of the school district. The prescribed statutory procedure and the wide diversity of possible redemption provisions render impracticable a general printed form for such matters. It is therefore suggested, should redemption provisions be desired, that competent financial and legal advice be first obtained.

This form is for use only when the principal amount of any issue has been divided into two or more series and Series A is being issued. If the bonds being issued are of a series subsequent to Series A use Form No. 5015-B instead of this form. If the issue has not been divided into two or more series use Form No. 5015.

NOTES—[1]Delete this clause if only Series A bonds are outstanding; repeat this clause for each series subsequent to Series B.
[2]Delete if all or remaining bonds are to be issued.
[3]Delete if only portion of remaining bonds are to be issued.
[4]Insert amount of TOTAL authorized issue.

SPECIAL NOTES:

Education Code Section 21809 provides that the bonds shall be signed by the chairman of the board of supervisors, "or by such other member thereof as the board of supervisors shall by resolution adopted by a four-fifths vote of all its members, authorize and designate for that purpose". If it is desired to have the bonds signed by such member rather than the chairman, then the Resolution and Order, and the bond form, should be changed accordingly, and the Resolution and Order must be adopted by such four-fifths vote.

Education Code Section 22051 provides for redemption of school bonds prior to their maturity at the option of the governing board of the school district. The prescribed statutory procedure and the wide diversity of possible redemption provisions render impracticable a general printed form for such matters. It is therefore suggested, should redemption provisions be desired, that competent financial and legal advice be first obtained.

This form is for use only when the principal amount of any issue has been divided into two or more series and a series subsequent to Series A is being issued. If the bonds being issued are Series A use Form No. 5015-A instead of this form. If the issue has not been divided into two or more series use Form No. 5015.

IN THE BOARD OF SUPERVISORS
OF
CONTRA COSTA COUNTY, STATE OF CALIFORNIA
EX OFFICIO THE BOARD OF DIRECTORS OF
CONTRA COSTA COUNTY WATER AGENCY

In the Matter of A "Position" with respect to San Joaquin Valley Drainage) RESOLUTION NO. 3105

WHEREAS this Board has passed three Resolutions pertaining to a position on San Joaquin Valley Drainage; on November 26, 1963, March 17, 1964, and on April 14, 1964; and

WHEREAS since March 17, 1964, several meetings have been held in connection with this matter, attended by representatives from Federal, State, and local agencies interested in and responsible for reaching agreement upon a mutually acceptable solution for San Joaquin Valley Drainage, and at which several tentative proposals were outlined, which proposals constitute the basis for this Resolution, setting forth this Board's position as follows: and

WHEREAS the Federal San Luis Act authorizing the construction of the San Luis Unit of the Central Valley Project by the Secretary of the Interior also requires that, provision must be made before commencement of construction for the drainage of agricultural return flows emanating from within the Federal San Luis Service Area, either in cooperation with the State of California, or by the means of construction of the San Luis Interceptor Drain, presently proposed to discharge at the Antioch Bridge; and

WHEREAS it now appears that the Bureau of Reclamation and the Department of Water Resources have agreed upon the concept of an "expansible Drain", which Drain would be financed jointly by the Federal Government and State Government; and

WHEREAS this program would eliminate one of the two major objections to previously stated solutions for San Joaquin Valley Drainage, that is, parallel construction of two Drains - - - one by the Federal Government and one by the State Department; and

WHEREAS the point of discharge for the initial construction phase of the "expansible Drains" as yet, remains at the Antioch Bridge; the other major objection to the solution for San Joaquin Valley Drainage; and

WHEREAS the proposed Drain would convey return irrigation flows from Central San Joaquin Valley which, in addition to dissolved salts, will contain concentrations of toxic chlorinated hydrocarbons (pesticides) and nutrients (nitrogenous and phosphoric compounds) which foster massive algae growth, along with treated domestic sewage, and treated industrial waste; and

WHEREAS the Drain's discharge represents a potential health hazard to the drinking water supply of Central and Eastern Contra Costa County, including the cities of Antioch, Pittsburg, Clayton, Martinez, Concord, Pleasant Hill, and the communities of Oakley, West Pittsburg, Port Chicago, Vine Hill, Pacheco, Crockett, and Port Costa; and

WHEREAS the Bureau of Reclamation has interpreted existing San Luis Project legislation to require commencement of construction of the San Luis Interceptor Drain by 1966, so that the "best interests" of the Project are served; and

WHEREAS the following studies, with respect to water quality in the Sacramento - San Joaquin Delta, are in process or pending:

The Bureau of Reclamation's $375,000 "Delta Water Quality Investigation" (being prepared for the purpose of improving water quality in the Sacramento - San Joaquin Delta);

The State Department of Fish and Game's "Fish and Wildlife Protection Study";

The proposed U. S. Department of Health, Welfare, and Education's Study: "Central Pacific Comprehensive Pollution Control Project";

Metcalf and Eddy, Consulting Engineers', studies authorized by this Board: "A study of Benefits to Contra Costa County Derived from a Usable Water Supply Maintained by a Hydraulic or Physical Barrier";

"A Study of the Effects of San Joaquin Valley Drainage upon Contra Costa County"; and

WHEREAS public statements by the Bureau of Reclamation to the effect that discharge of the Drain at the Antioch Bridge is not detrimental to the receiving waters bears witness that the Bureau of Reclamation has already decided that waters of the Sacramento - San Joaquin Delta will not be improved beyond that afforded by a calculated net outflow of 1500 c.f.s., thereby rendering the "Delta Water Quality Investigation" and other studies wasted effort; and

WHEREAS the Bureau of Reclamation has given assurances that it will undertake a monitoring program of the Drain discharge at the Antioch Bridge and extend the Drain westerly at some undetermined time in the future, if the discharge proves deleterious to the offshore waters of the Sacramento - San Joaquin Delta; and

WHEREAS in the past the Bureau of Reclamation has given similar assurances to the effect that "salinity control" would be a function of the Central Valley Project and then subsequently abrogated responsibility for this function; and

WHEREAS a monitoring program during the initial years of the operation of the Drain is meaningless as a determinant of long-range effects; and

WHEREAS the Bureau of Reclamation has not developed standards which will be furnished by the Bureau's pending "Delta Water Quality Investigation" and which would establish the point in time when the Drain would be extended westerly from the Antioch Bridge, nor has the Bureau of Reclamation offered cooperation in amending the San Luis Act to provide legislative authorization for the financing of the extension of the Drain; in our opinion, the only positive assurance that the Drain will not finally terminate at the Antioch Bridge; and

WHEREAS the Central Valley Regional Water Pollution Control Board and the San Francisco Bay Regional Water Pollution Control Board have both prohibited the discharge of waste waters from the San Joaquin Valley through the San Luis Interceptor Drain to the waters of the Sacramento - San Joaquin Delta or the San Francisco Bay System, pending development of information that would show that no damage would be caused thereby; and

WHEREAS the Bureau of Reclamation has developed several interim solutions for the collection and disposal of agricultural drainage from the Federal San Luis Service Area, which interim solutions could provide the time necessary for completion of the above studies so that findings and conclusions of these studies can be reflected in a final solution for San Joaquin Valley Drainage; and

WHEREAS certain agricultural interests in Fresno, Merced, and Stanislaus Counties below the Federal San Luis Unit Service Area, oppose any such "interim solution" and insist that the San Luis Interceptor Drain be constructed initially to its full capacity with discharge to the Sacramento - San Joaquin Delta at the Antioch Bridge; and

WHEREAS there is no reason to believe that adoption of one of the interim plans, and particularly the plan which calls for temporary, controlled discharge of the drainage waters to the San Joaquin River below the mouth of the Merced River with the concurrent release of sufficient fresh water from the Central Valley Project to the San Joaquin River, in order to adequately dilute said drainage waters, would in any way adversely affect said agricultural interests; and

WHEREAS Sacramento - San Joaquin Valley Drainage will enter the San Francisco Bay System, a condition which will require the eventual disposal of these various discharges of the Sacramento - San Joaquin Valley to the Pacific Ocean, so that fish and wildlife resources are preserved and the waste assimilation capacity of the Sacramento - San Joaquin Delta and San Francisco Bay System can be equitably used; and

WHEREAS discharge of Sacramento - San Joaquin Valley Drainage to the San Francisco Bay System represents an usurpation of the assimilative capacity of that System that will impose an additional and unfair financial burden on the taxpayers of the San Francisco Bay Area for the benefit of the Central Valley,

NOW, THEREFORE, BE IT RESOLVED, that

1. The Bureau of Reclamation and the Department of Water Resources are urged to adopt and implement one of the interim plans developed by the Bureau in order to provide time for proper investigation and planning of the whole problem of collection, treatment

and disposal of wastes from the entire Central Valley, Sacramento - San Joaquin Delta, and the San Francisco Bay Area;

2. The Central Valley and San Francisco Regional Water Pollution Control Boards are urged to continue their prohibitions against such discharge, pending further technical studies of the possible effects thereof;

3. The Congress is requested to appropriate funds for fiscal year 1964 - 1965 so that the United States Public Health Service, Division of Water Supply and Pollution Control, may continue and expand its studies of quality problems and pollution control in the Sacramento - San Joaquin Delta and San Francisco Bay System with particular emphasis on the effects of the proposed discharge of agricultural drainage and treated domestic sewage and treated industrial waste;

4. Contemporaneously with preparation of the hereinbefore mentioned pending studies, the Board of Supervisors of the Sacramento - San Joaquin Delta Counties, and the San Francisco Bay Area, possibly acting through the Association of Bay Area Governments, and the Delta Counties Consulting Board are urged to immediately cooperate in the formulation of a comprehensive master plan for the future collection, treatment, and disposal of waste waters from the Central Valley, Sacramento - San Joaquin Delta, and San Francisco Bay Area, which plan could be integrated with a plan for San Joaquin Valley Drainage Facilities;

5. The San Luis Act be amended so that the Bureau of Reclamation and the State Department of Water Resources can plan and design the San Joaquin Valley Drainage Facilities so as to be capable of integration into such a comprehensive sewerage system and so that the Sacramento - San Joaquin Delta will be eliminated as a place of discharge for San Joaquin Valley Drainage;

6. The expenditure of any monies on the Federal San Luis Drain which is in any way detrimental to the realization of a comprehensive drainage system for the Central Valley, Sacramento - San Joaquin Delta, and San Francisco Bay Area, not be authorized;

7. AS ON PREVIOUS OCCASIONS THE FOLLOWING CONDITIONS WERE OBSERVED:

1. SEWAGE WAS OVERFLOWING AREAS THROUGHOUT THE AREA ABOVE DESCRIBED IN AN ESTIMATED TWELVE PLACES IN VIOLATION OF SECTION 4476, 5410c AND 5411 OF THE HEALTH AND SAFETY CODE OF THE STATE OF CALIFORNIA AS WELL AS ORDINANCE #374 OF THE COUNTY OF YOLO.

2. THE AREA ABOVE DESCRIBED IS SUPPLIED WITH WATER FROM A WELL WHICH IS SHALLOW AND THUS EASILY SUBJECT TO SEWAGE CONTAMINATION.

3. THE SOIL IN THE AREA IS DESIGNATED ON THE SOIL MAP AS CAPAY CLAY, AN ESPECIALLY HEAVY AND IMPERVIOUS CLAY.

IN ADDITION TO THESE FINDINGS IT IS KNOWN THAT THE WATER TABLE IN THE AREA IS EXCESSIVELY HIGH AND IN YEARS OF HEAVY RAINFALL IT MAY RAISE ALMOST TO THE SURFACE. INDIVIDUAL BUILDING LOTS, IN GENERAL, ARE ONLY TWENTY-FIVE (25) FEET IN WIDTH THUS MAKING IT NECESSARY THAT SEVERAL BE AVAILABLE FOR THE BUILDING OF A HOME. THIS USUALLY RESULTS IN VERY SMALL AREAS FOR DISPOSAL OF SEWAGE EFFLUENTS. AS A RESULT OF THE TYPE OF SOIL AND THE LIMITED AREA FOR DISPOSAL, SEPTIC TANKS FUNCTION POORLY IF AT ALL.

AS YOLO COUNTY HEALTH OFFICER, I THEREFORE RECOMMEND AS A NECESSARY HEALTH MEASURE THAT THE HONORABLE BOARD OF SUPERVISORS INSTITUTE PROCEEDINGS UNDER APPROPRIATE STATUTORY PROVISION FOR THE CONSTRUCTION OF SANITARY SEWERS FOR THE AFORESAID AREA TO ABATE THE UNSANITARY CONDITIONS.

THIS REPORT AND RECOMMENDATION IS SUBMITTED PURSUANT TO SECTION 2609 OF THE STREETS AND HIGHWAYS CODE OF THE STATE OF CALIFORNIA.

ERWIN W. MEIER
COUNTY EXECUTIVE

COUNTY OF YOLO

Woodland, California

July 15, 1964

Honorable W. W. Conner, Chairman
and Members of the Board of Supervisors
Woodland, California

Gentlemen:

The proposed county budget for the fiscal year 1964-65, as submitted for your consideration and review, provides for an expenditure program in total budgetary requirements for all county purposes of $11,976,719, which is $37,171 less than the total county budget of $12,013,890, for the previous fiscal year 1963-64. As a result, the cost per capita will decline from $157.66 for 1963-64 to $149.97 for 1964-65, or a reduction of $7.69 per capita.

The proposed budget for the fiscal year 1964-65 also provides for the continuation of the same basic county tax rate of $2.08 per $100 of assessed valuation as existed in the fiscal year 1963-64, divided as follows:

General Fund	$1.80
Accumulative Capital Outlay	.28
Total	$2.08

Despite the fact that the proposed budget provides for maintaining the same basic county tax rate of $2.08 in 1964-65 as in 1963-64, and despite the fact that the 1964-65 proposed budget is less in tax dollars than the budget for 1963-64, there are increases in budgetary items throughout the budget. A partial list of such increases, totalling $756,072, is as follows: (Detailed comments relating to certain of these items of increase will be included in a subsequent portion of this budget letter)

	Requested 1964-65	Increase Over 1963-64	% Increase
Capital Outlay Fund	$ 838,865	$188,215	29%
Welfare Department	4,156,806	302,722	7%
Sheriff	684,151	109,382	19%
Superior Courts	107,589	49,382	84%
Mental Health Department	61,582	61,582	100%
(New Authorized Program)			
Davis Judicial District	34,533	9,962	40%
Grafton Judicial District	4,936	1,386	39%
Washington Judicial District	41,365	10,128	32%
Woodland Judicial District	39,793	9,913	33%
Fouts Springs Boys Camp	50,000	13,400	36%

During the course of this fiscal year your Honorable Board was confronted with one very interesting financial problem. This problem arose due to the fact that the new state budget law enacted by the Legislature required that Yolo County change its payroll procedure from paying for the month of June, 1964 out of the 1964-65 budget, to paying for the June salaries from the 1963-64 budget. This meant that in the previous fiscal year of 1963-64 thirteen months salary cost had to be absorbed. The employees did not receive any additional salary, since this was purely a payroll accounting transaction. In effect, however, this reduced available cash as of June 30 by approximately $300,000, covering all general operations, the road department, and the county library. The fact that this cost was able to be absorbed without increasing the tax rate of 1964-65 by approximately twenty (20) cents represents the measure of the challenge with which the county was confronted during the past few months in 1964. The cooperation and conscientious effort of department heads was of invaluable assistance to me in achieving such savings in executing the request of your Honorable Board in this regard.

GENERAL COMMENTS

(1) CAPITAL OUTLAY FUND:

The proposed capital outlay budget of $838,865.00 is the largest in the history of Yolo County.

(A) $653,865 is provided for the county share in the construction of a new Sheriff's Office and County Jail. Preliminary plans of the architects provide for construction of a building which will be reasonably adequate to the year 1980. Unforeseen extreme population growth can nullify this projection. Adverse reports on the county jail have existed since 1959. Recent reports from the State Fire Marshal, the Juvenile Justice Commission, and the County Health Department have not been complimentary. Without construction of a new building, all interim measures have been taken in compliance with the recommendations of the State Fire Marshal. There is the possibility of Federal participation in the cost of construction of this detention facility and cognizance of that possibility is reflected in this budget.

(B) The sum of $120,000 is included for land acquisition in connection with completion of the jail site and for purchase of land for needed refuse disposal sites.

(C) The sum of $25,000 is provided for the continuing program for remodeling and reconstruction at the County Hospital which is necessary for relocation of certain crowded hospital services into larger quarters.

(D) The sum of $25,000 is provided for the continuing program for remodeling and relocation of certain departments with additional space in the Court House.

(E) The sum of $9,000 is provided for reasonable reconstruction and improvement of existing county offices located in Broderick.

(F) The sum of $6,000 is included for completion of improvements to the county building in Winters which will house the Winters Branch and other library services, and offices and courtroom for the Winters Judicial District.

(2) **DEPARTMENT OF PUBLIC WELFARE**

The budget for 1964-65 for this department is $4,156,-806.00 which is $1,187,023.00 more than actual expenditures in 1962-63. Due to favorable weather conditions in the 1963-64 winter months which assisted in maintaining employment, the utilization of welfare support by persons in the county did not become as high as anticipated. The 1964-65 budget is based upon current experience and the coming into effect of additional state laws and regulations pertaining to the respective welfare or public assistance programs. County costs for the operation of this department vary between 16% and 20%, with the remaining balance of costs provided by both the federal and state governments. This budget also contains adequate provisions for the county welfare work program, which was initiated in the latter part of the 1963-64 fiscal year.

(3) The budget for the Superior Courts includes provisions for additional staff for establishing a Court of Conciliation.

(4) Your Honorable Board has approved establishment of community mental health services and the budget for the Department of Mental Health is consistent with the recommendations submitted by the County of Yolo Youth and Health Services Advisory Committee.

(5) The budget includes an expenditure for a Park Department for the first time. Proposed expenditures of $21,-600.00 include an increase of $9,400.00 over 1963-64. There is general agreement in the county that this is a needed function, however, full implementation of this department is not provided. Since the report on recreation needs in Yolo County now being prepared by the State Division of Recreation has not been received as yet, provisions for operating personnel for such department has not been included.

(6) The Budget for the Board of Supervisors includes funds for a survey of capital construction needs and related financing requirements projected to the year 1980 in accordance with the request of your Honorable Board. Inclusion of such funds reflects the need for a long range capital improvement program consistent with county growth. When this survey is completed it should be reviewed at four (4) year intervals and brought up-to-date if necessary in order that it will properly reflect changes in county growth and needs from date of the initial survey.

(7) The budget for the County Library and its extensive System of branches throughout the county is in the amount of $147,223.00 and includes an expenditure requirement of $7,222.00 more than the budget for 1963-64. This will require an increase of one (1) cent in the tax rate for library purposes, or from eight cents in 1963-64, to nine (9) cents in 1964-65. This increase in the tax rate for library services is primarily due to the fact that the library fund has been artificially financed through large year-end unexpended funds. In the past two years this has occurred due to inability to employ professional personnel even though authorized, and in some instances inability to effectively utilize funds provided for capital outlay purposes. The 1964-65 budget for the county library system reflects established policies of your Honorable Board, and it is on that basis that it is presented for your consideration and review. The County Library has been capably administered in the past

and continues to be under the direction of the new County Librarian, Mr. Charles Atkins.

RECOMMENDATIONS

The recommendations which follow are based upon a review of the entire budget and its impact upon the operation of the county government. Many changes and improvements have been made in the operation of the county and it is anticipated that this will continue. To all intents and purposes the county organization will be completed regardless of future growth through the establishment of a Mental Health Department, and the first phase establishment of a Park Department. Numerous requests have been made for additional personnel in connection with the 1964-65 budget. I have certain policy reservations to the addition of new personnel this year. Primarily the respective departments requesting additional personnel have operated on a reasonably satisfactory basis during 1963-64.

Specific recommendations pertaining to the 1964-65 budget are as follows:

(1) That your Honorable Board adopt the proposed budget for 1964-65, and then make such necessary changes or revisions as you may deem advisable. This is the same procedure followed last year and is of material assistance in eliminating duplication of work by the County Auditor and his staff.

(2) That your Honorable Board review the budgets for the respective Judicial Districts for uniformity inasmuch as it has been Board policy that uniformity be maintained. This also applies to requests made for salary increases made by certain Judges of several districts.

(3) That your Honorable Board review the request of the Superior Courts for the establishment of a Court of Conciliation, since there is no policy of this matter at this time.

(4) That your Honorable Board deny the request of the County Assessor for additional personnel: one Appraiser, one Associate Appraiser, one Senior Delineator, one Assistant Assessment Clerk. Addition of these personnel would require an increase in the budget of $29,404.00. As of June 30 there were four vacancies existing in the Assessor's Office, as follows: One Chief Appraiser, one Senior Auditor Appraiser, two Junior Appraisers. Inasmuch as these unfilled positions have been authorized by your Board and would have been of material assistance had they been filled. I believe that the load of the Assessor's office, which is heavy, would be materially lightened by the filling of these previously authorized positions, rather than adding four additional positions this year.

(5) That your Honorable Board deny the request of the Director of Public Welfare for the addition of one Social Work Supervisor, one Social Worker I, and one Janitor. This would require an addition to the budget of $18,104.00. Eighteen (18) positions had to be added to this department during the 1963-64 fiscal year because of new state laws and regulations. This expansion is sufficient for the time being. The work of this department has progressed exceptionally well under Mr. Curley's leadership, and it has made major progress through the establishment of a welfare-work program. I therefore do not concur in the request for these additional positions.

(6) That your Honorable Board consider a policy for the establishment of a Court of Conciliation, which requires the addition of two additional positions totalling $16,-204.00. The funds for this purpose are included in the 1964-65 budget.

(7) That your Honorable Board deny the request of the Department of Public Works for the addition of one Associate Civil Engineer, one Principal Engineering Aide, one Office Manager. This would require an addition to the Public Works budget of $25,371.00. This recommendation is based on the limitation of funds available for this department, without adding to the tax rate of the county.

(8) That your Honorable Board deny the request of the Sheriff for ten additional positions, and that instead three additional positions be provided as follows: Personnel and Training Officer, one Deputy Sheriff as an assistant to the Personnel and Training Officer, and a Deputy Sheriff for night supervision at the main office of the Sheriff. The Sheriff has requested additional Deputy Sheriffs and one Communications Operator, and also included a request for the Personnel and Training Officer. This recommendation is submitted by the County Executive as consistent with the recommendation of the Holstrom report, and is therefore consistent with the analysis of that consultant on the operation of the Sheriff's office, submitted in 1963. Among the additional personnel requested by the Sheriff were additional Deputy Sheriffs for expansion of the Resident Deputy program in that department. The recommendation in the Holstrom report is that this program be gradually phased out of existence, rather than expanded. I would also like to call the attention of your Honorable Board to the fact that late in the fiscal year 1963-64 you have approved one additional Deputy Sheriff and one Senior Account Clerk for the Sheriff's office. The effect of the recommendations which I have made is to reduce the salary account presently contained in the budget by $29,820.00.

(9) That your Honorable Board delete from the budget the salaries and wages provided for the Public Health Social Worker in the County Health Department. This will amount to the deletion of $7,574.00 which is presently included in the budget. The purpose of this recommendation is that Social Worker positions are being provided and included in the budget for the Mental Health Department, and such positions are also in considerable number in the County Department of Public Welfare. I do not believe it is consistent with good public policy to maintain Social Workers in other departments, other than as absolutely required.

(10) That your Honorable Board approve the position of Branch Library Assistant, Range 20 (252-307), which is included in the budget of the County Library. It is a necessary position and is therefore recommended for your approval.

(11) That your Honorable Board deny the request of the Communications Department for an Electronic Technician Installer. This is the second year in a row that this request has been made. The department has operated very properly during the past year without this additional position, and it is therefore recommended that it be denied. Furthermore, it is the intention of the County Executive to review the operations of this de-

partment during the early portion of this fiscal year. This position is not included in the budget as submitted.

(12) That your Honorable Board consider as a matter of policy the need for the transfer of the position known as Departmental Secretary from the County School Service Fund to the budget of the Superintendent of Schools which has been requested by the Superintendent.

(13) That your Honorable Board allow the addition of one Deputy Probation Officer, and one Intermediate Stenographer Clerk for the Probation Department, and that your Honorable Board allow one additional Deputy Probation Officer effective July 1, 1965. Substantial progress has been made by the Probation Officer in the operation of this department, and new office space has been provided for that department during the past year. The Probation Officer has requested that two Deputy Probation Officers be allowed in the present budget but inasmuch as there will be insufficient funds available until January 1 for hiring of additional personnel, this department will have, based upon this recommendation, substantially all that was requested, but not at the specific time requested. Adoption of this recommendation will require an addition of $10,542.00 to the budget of this department.

(14) That your Honorable Board not allow the hiring of additional personnel as may be recommended above until January 1, 1965, except for the Personnel and Training Officer in the Sheriff's department. This recommendation is necessary inasmuch as this county, as any other county, operates on an extreme shortage of funds between July 1 and January 1 each year, until the December tax receipts have been collected. In addition, there will be a greater drain of the General Fund of the county this year than in other years, due to the fact that welfare expenditures, of which the county pays a portion, are substantially increased over prior years.

(15) That your Honorable Board give serious consideration to placing any reductions which you may accomplish in the course of your review of the budget into the Reserve for Contingencies, for possible salary adjustments during the latter half of this fiscal year. During the course of the last few months numerous agencies with whom the county competes for specialized personnel have increased salaries which will gradually establish a recruitment problem during the course of this fiscal year. Anticipated areas of difficulty are Public Health, Agriculture, and Hospital Departments. Specifically, throughout the county organization, recruitment of clerical personnel is difficult now and will develop into a problem as the months progress.

The recommendations which have been made above, and in particular those relating to respective departments of the county, as far as addition of personnel is concerned, are based upon an over-view of the entire operation of the county. They are made respectfully and are meant to be constructive, but it is and must be a concern of the County Executive as to the over-all tax burden on the taxpayers of the county in the recommendations which he may make to this Honorable Board, and it is in that spirit that these recommendations have been made.

This has been a year of real and constructive progress in the operation of the County Government; the new zoning ordinance is being kept up to date through the efforts of the Planning Director, Robert Peterson, and the Planning Com-

mission; the Fifth Street Underpass at Broderick is not only completely financed but also constructed; major progress has been made in providing financing for the new jail without additional taxes; the new hospital kitchen and hospital morgue have been completed; installation of data processing, which your Honorable Board authorized a year ago, has proceeded into operation without trouble, and in fact is far ahead of the schedule that was anticipated a year ago; major improvements have been made in the county road system throughout the county; substantial improvements have been made in office space for the Probation Department and the Assessor's office, with more to follow during 1964-65; a new personnel ordinance has been drafted and will be presented to your Honorable Board within a short period of time; Putah Creek, the first major recreation area of the county has been opened for the use of the public; a community mental health service has been approved; the county's application for a major drainage project has been approved by the State Soil Conservation Board, and further developments and plans are anticipated to be made for this project during the coming year; and, lastly, there has been a real spirit of team work which has contributed much to the betterment of the county government.

I wish to acknowledge the cooperation and assistance which has been provided by County Auditor-Controller, Arthur Heasley, and Deputy County Auditor, Clifford Wetherbee, and the staff of the County Auditor-Controller's office in the compilation and development of this budget. Particular reference should be made to the special reports on revenues and expenditures that were made for my convenience in the middle of June, which were of great assistance in enabling the submission of a realistic budget. It continues to be a pleasure to work with the personnel of that office.

Your Honorable Board has been willing, and often on short notice, to review county matters with the County Executive and the respective department heads. This has established assurance that policy guidance would be provided, and that problems as presented will receive your serious consideration. My secretary, Mrs. Marguerite Lucchesi, the Purchasing Agent, Mr. Jack Harrington, and the Personnel Director, Mr. Floyd McCain, have contributed materially in the development and presentation of this budget and their assistance is sincerely appreciated.

Respectfully submitted,

Erwin W. Meier

RESOLUTION NO. 64-91

A RESOLUTION URGING REMEDIAL ACTION IN THE MATTER OF RECENT DECISIONS OF THE UNITED STATES SUPREME COURT RELATING TO APPORTIONMENT OF STATE LEGISLATURES

WHEREAS, the Supreme Court of the United States recently in a series of drastic decisions involving the legislative bodies of the States of Alabama, New York, Colorado, Maryland, Virginia and Delaware declared that the equal protection clause of the Fourteenth Amendment of the United States Constitution requires that seats in both houses of a bicameral legislature must be apportioned strictly upon a population basis and that the Federal principle of a lower house based upon population and an upper house or senate based upon other factors, including geographical considerations was unconstitutional when applied to state legislatures; and

WHEREAS, while the actual decisions applied only to the states aforesaid, the import thereof is that the present composition of the Legislature of the State of California insofar as the Senate is concerned will ultimately be likewise declared unconstitutional; and

WHEREAS, these decisions would prevent a state in the sound judgment of its own people from adopting a bicameral legislative system based upon the principles long applicable to the California legislature, established by and approved by popular vote of the people, and upon several occasions, even as late as 1962, confirmed by popular vote, is a distorted, unjustified, and inappropriate application of this constitutional provision; and

WHEREAS, the present bicameral system established in California and reaffirmed by the people from time to time as aforesaid

has resulted in unparalleled prosperity, unity of our people, and progress of our great state; and

WHEREAS, the structure of the California Legislature like that of the Federal Congress is a part of the historical mechanism of governmental checks and balances in our democratic system and any change therein can only bear the bitter fruit of disenfranchisement, discord, and disunity, setting interest against interest, north against south, city against country, inevitably resulting in the ultimate fragmentation of the great State of California,

NOW, THEREFORE, BE IT RESOLVED that the Board of Supervisors of the County of Yolo, State of California, supports the amendment of the Constitution of the United States to prevent the loss of the right of individual citizens in the respective states to vote and thereby determine the basis of representation in the Legislature; and

BE IT FURTHER RESOLVED that the Board of Supervisors of the County of Yolo, State of California, favors the maintenance of the present system of representation in the State Senate of the Legislature of the State of California; and

BE IT FURTHER RESOLVED that the Honorable Thomas H. Kuchel, United States Senator; the Honorable Pierre Salinger, United States Senator; the Honorable Robert L. Leggett, Congressman from the 4th Congressional District; the Honorable Samuel R. Geddes, State Senator from the 11th District; and the Honorable Harold E. Booth, Assemblyman from the 4th District, are requested and urged to take such necessary action to preserve the present method of representation in the Senate of the State of California; and

BE IT FURTHER RESOLVED that the Board of Directors of the County Supervisors Association of California is requested to take all necessary courses of action to preserve representation of the California State Senate as it is now constituted.

LETTER OF INTRODUCTION

The purpose of this plan is to establish a basic guide to all County Civil Defense Emergency Services in order that all can act in conformity during the time of local or national disasters. No plan can be prepared for every contigency, but a well designed disaster plan can greatly reduce or nullify the effects of any emergency. All services are trained to operate within the scope of their normal functions. In time of disaster, their responsibilities will be increased to cope with disaster conditions.

This plan is to provide for the mobilization, organization and direction of the people of Yolo County in event of a disaster. It is the desire of the Yolo County Board of Supervisors to maintain local governmental and organizational control and to bring about an orderly and speedy recovery from any disaster situation. In order for this plan to be effective, the persons having the assigned tasks of functioning in a disaster must be not only completely familiar with the whole plan, but specifically with the function for which he is primarily concerned.

In order for a plan to be effective, it must be tested and reviewed and continuously up-dated to keep current with the technological advances and changes. This plan will not prevent disasters, but can minimize the effects of a disaster by saving lives and property. This plan has been developed with these purposes in mind.

Chairman, Board of Supervisors

LETTER OF INTRODUCTION

Yolo County can be materially affected by a variety of emergency events or disasters which can occur at any time with little or no warning. These occurrences may be caused by acts of nature or by acts of man that are either accidental or intentional. The Yolo County Operational Plan states the authority and enumerates the peacetime and wartime disasters. It gives meaning and purpose to all County emergency services to assist each in their duties to perform their prescribed task during times of extreme emergency.

The Annexes contain the essential detailed information necessary to carry out the general concept of the plan. These may be re-written or up-dated as deemed necessary to meet the changing times. Disaster of any kind or nature can never be eliminated. Proper planning and organization is only a preventive measure helping to control and re-establish rapid recovery.

William Ray Favrot,
Civil Defense Director

FOREWORD

The ever present threat of natural disaster and disaster caused by accidents in our country today is very real to us in California and Yolo County. The need for adequate preparedness to cope with the effects of disaster is increasing day by day with the tremendous population explosion and industrial growth in Yolo County. Our disaster loss potential is increasing with this growth.

The policies and general procedures outlined in this plan are intended to provide a common basis for Yolo County government operations in natural or non-war caused disaster situations. They provide the guide lines for the development of appropriate procedures with County Department Heads and other organizations, to facilitate the prompt and efficient application of resources to a disaster situation through Mutual Aid. Added to the possibility of natural disaster and accidents is the continued threat of attack on our country. Concentrated near our area are vital defense industries and major military installations which would be remunerative targets for attack. The general procedures used for adequate preparedness for natural or accident caused disasters are designed to assist in achieving a posture of readiness for this threat. This plan, being general in nature, is designed to provide a flexible working basis for the pooling of resources in the County for the purpose of saving life and property through Mutual Aid.

OFFICE OF CIVIL DEFENSE

County of Yolo

CIVIL DEFENSE AND DISASTER PLAN

Basic Plan

I. AUTHORITY

A. This plan is predicated upon the California Disaster Act, as amended, County Ordinance Numbers 226, 306 and 326, and other County Ordinances and Resolutions that may be enacted by the County of Yolo.

B. All public employees are declared to be civil defense workers subject to such civilian defense activities as may be assigned to them by their superiors or by law, under the provisions of the Government Code, Chapter 8, Division 4, Title 1.

II. GENERAL ASSUMPTIONS

A. Natural Disaster and Accidents

Acts of nature are, of course, uncontrollable. The effects of such acts, however, can be greatly reduced if proper preparation and planning are accomplished in advance. Fires, floods, severe windstorms, and earthquakes are always dangerous and may destroy both life and property. They can occur in Yolo County with little or no warning.

1. Fires

Fires are every day occurrences in the County, in urban, industrial and farming areas, fires of such proportions, that evacuation of whole areas may be necessary. In the flat country, grain and brush fires can reach a proportion where much property is in danger and traffic may become so congested so as to stop all travel due to

smoke. In the hills in Western Yolo, large fires during the dry season, may break out at any time and the use of equipment, manpower, as well as, heavy duty equipment, such as bulldozers, would be in great demand. In all instances, Mutual Aid would be a major factor in containing fires.

2. Floods

Many watersheds exist in this County. Each is drained by one or more streams, which, at times during the rainy season, are filled to capacity. All of this water moves toward low ground and most of it eventually ends up in the Sacramento River. Obstructions or weak spots in stream beds, construction projects and just too much rain can cause these streams to overflow their banks, flooding low lying areas. In addition, an over abundance of rain can tax storm drains and sewers beyond their capacity, causing a condition of flooding in even the best drained locales.

3. Severe Windstorms

The U. S. Weather Bureau can usually forecast severe windstorms with a high degree of accuracy. Damage from high velocity windstorms can create a major disaster in Yolo County, especially after a long wet season with the uprooting of trees along our major highways and urban areas, breaking of utility lines, particularly, high tension wires disrupting traffic and causing fires.

4. Earthquakes

There are no major earthquake faults located in Yolo County. It is important, however, to understand that the risk of strong tremors does not depend on the proximity of a fault line, but rather on the characteristics of the ground.

Earthquakes reach damaging intensities only on solid rock, while many moderate earthquakes miles from a major fault, may cause damage.

B. Man-Made Disasters

Accidental Disasters - The possibility of chemical accidents, falling aircraft, industrial explosions and accidents in transporting radioactive materials cannot be overlooked in Yolo County. With the development of new industries and a continuing growth in the County's population, not only the possibilities of emergency occurrences are increased but also the number of individuals who can be affected by these occurrences.

1. Chemical Accidents

Because of the industrial growth of Yolo County, chemical accidents of disaster proportions can occur. Accidents can involve tank trucks, railroad tank cars, boats docked in the Sacramento-Yolo Port, and industrial plants, all of which carry or handle large quantities of toxic gases and/or chemicals. The possibility of an aircraft accidentally falling cannot be overlooked. Both military aircraft and major airlines crisscross the County in daily flights. Private aircraft are used for seeding and dusting of crops. All are subject to mechanical failure and/or human error which could lead to a disaster or emergency condition.

Accidents involving the movement of hazardous cargo, such as high explosives, on the highway could seriously affect the safety of persons in the area. This is especially

true in the East Yolo Area where safe stops are designated.

C. War-Caused Disaster

The initiation of a thermonuclear war by any present nuclear power is considered unlikely. Nevertheless, as long as a nuclear war-making capability exists, there is a possibility that such a war could occur through accident, miscalculation or an irrational act, as well as by a deliberate attack. Intercontinental ballistic missiles, submarines and bombers make it possible for an enemy to deliver nuclear and conventional weapons anywhere in the United States. Biological and chemical warfare agents would be used. Psychological warfare, before, during and after an attack may also be utilized in an effort to confuse our people and undermine their morale. Yolo County is on the fringe of the Sacramento Area which is considered a metropolitan area of high population density, containing military and industrial facilities. Certain areas are located in a danger zone, namely:

East Yolo area of Bryte, Broderick, West Sacramento and Clarksburg are within the aiming area of the Sacramento target area. The areas of Davis and Winters are within the danger zone from the Travis Air Force Base target.

Potential targets, bases and installations of the strategic air command and the air defense command well within our area are as follows:

A. TITAN MISSILE SITES

Chico - Butte County

Sutter Buttes - Sutter County

Lincoln - Placer County

B. STRATEGIC AIR COMMAND BASES

Beale Air Force Base - Yuba County

Mather Air Force Base - Sacramento County

Travis Air Force Base - Solano County

C. AIR DEFENSE COMMAND BASES

Travis Air Force Base - Solano County

Hamilton Air Force Base - Marin County

The primary objective of operations prescribed in this plan is the maximum preservation of life and resources endangered by the direct blast, heat and thermal effects of nuclear weapons in the vicinity of the explosion and the radioactive fallout which will be deposited over an extended area. The initial radiation kills within a mile or two. The heat rays can kill unprotected people up to 10 miles away and may start fires beyond that. About five miles from the explosion, the heavier particles, early fallout, would reach the ground in half an hour. Twenty miles away, people may have nearly an hour to get ready. One hundred miles away the fallout may not start for four to six hours. All this early fallout, which carries the bulk of the radiation danger, descends in less than 24 hours. Evacuation may be necessary under certain conditions.

III. OBJECTIVES

Civil Defense actions, carried out by the general public and by all levels of government in time of general war or extreme disaster, are an essential part of the total defense effort. Specific objectives of these actions are:

a. To minimize the loss of life and property resulting from either of the above situations.

b. To provide for quick recovery.

IV. ORGANIZATION

A. The situation which could be created as a result of disaster or war emergency would require prompt responses and effective action by most of the County departments and department heads and close coordination with incorporated cities and other existing agencies, such as, the military and the American Red Cross.

1. Executive direction and coordination in case of attack on this County or a major disaster, will be by the Chairman of the Board of Supervisors, as Director of all Civil Defense forces in the County. The Coordinator is the Assistant Director. He and the County Disaster Council will assist the Director in the Exercise of his powers and duties, and will coordinate the efforts of the Civil Defense and Disaster Organizations in the County. Each County Department Head will be responsible for the planning, operation and function of his respective service under the basic operations plan concept.
2. Alerting, warning, informing and advising the public.
3. Chemical, biological, radiological monitoring and reporting.
4. Communications.
5. Law Enforcement, preservation of public order and security of vital resources.

6. Traffic and movement controls, particularly assisting people in their movement to protective shelters and keeping people out of damaged or contaminated areas.

7. Management of community shelter facilities.

8. Fire and damage control.

9. Rescue and evacuation of trapped and/or injured persons.

10. Repair and restoration of utilities and other essential facilities.

11. Public health measures and casualty care; sanitation.

12. Housing, care and feeding of disaster victims.

13. Recruitment and allocation of available manpower for disaster control and relief activities.

14. Procurement, control, allocation and distribution of food, petroleum and drugs.

15. Collecting, collating and evaluating disaster information, dissemination of this information to its own staff and emergency services in the form of operational intelligence, and reporting such information to higher civil defense headquarters and neighboring jurisdiction.

V. OPERATIONAL ACTIVITIES

A. This plan may be placed in effect in part or in its entirety, depending upon the nature of the emergency or disaster situation.

B. In the event of a national disaster wherein

nuclear or thermonuclear weapons are employed, it will be necessary for the population to resort to fallout shelter protection. It will be the responsibility of each individual or family group to seek appropriate protection for survival by using public, group, or family shelters.

1. The Control Center is located in the Communications Department of the Court House, which also serves as the Yolo County Emergency Operating Center, EOC. Warning will be received over the Bell and Lights Receiver in the Sub-Station of the Sheriff's Office and through the Department of Justice Teletype. It will be immediately transmitted over radio or direct telephone line to the control center where alerting will be activated over strategically placed sirens which will be activated from a central control point and by County Government, Fire, Law Enforcement and Public Works radio frequencies, as well as, alerting key personnel by telephone. During the day, additional Bell and Lights Receivers are located in 13 schools in the County and in the City of Woodland Police Department. An alternate control center could be set up at a designated place with one or all three operational mobile units utilized, using all County frequencies. The use and meaning of the Bell and Lights is as follows:

   AUTHENICATION SIGNAL - Bell and Blue Light, 3 short

bells, repeated, 30 second signal. This signal always precedes an Alert or Take Cover Signal. The Yolo Operational Area will activate the EOC and prepare for operations.

ALERT SIGNAL (Strategic Warning) Bell and Yellow Light 2 short bells, repeated, 3 minute signal, preceded by 30 second Blue Signal.

TAKE COVER SIGNAL (Attack Imminent or in Progress) Bell and Red Light, continuous short bells, 3 minute signal, preceded by 30 second Blue Signal.

C. Upon receipt of the Alert Signal or Take Cover Signal, the Communications Department will sound public warning sirens, 3 to 5 minute steady blast on an Alert Signal. This will activate the EOC.

On a Take Cover Signal the public warning sirens will sound a 3 minute wailing and warbling or a series of short blasts of 3 minute duration.

Upon the Red Warning, the County population should disperse to the nearest public group or family shelter and anticipate minimum residence in these facilities for fourteen days. Public shelters will be marked, stocked with provisions, food, medical and sanitation supplies. Such supplies should be adequate for a fourteen day period when occupied at the rated shelter capacity. Each shelter will be under the control of a trained shelter manager.

D. The members of the County Disaster Council will comprise the staff of the Emergency Operations Center (EOC) and

upon warning, will assume their duties in the EOC.

E. Each Public Shelter will be provided with radiological defense (RADEF) monitoring kits, and a person trained to operate this equipment. Shelters and monitoring stations will report radiological data to the County Radef Officer by the best available means of communications.

F. All civil defense activities will be controlled and directed from the EOC and intelligence reports will be furnished by the monitoring stations, shelters and the State Regional Office of the California Disaster Office(CDO). Intensity of radioactive fallout will determine the recovery and rehabilitation time.

G. Time phases of recovery will be computed by the Radef Officer and established by the Director of Civil Defense based on information furnished to and evaluated by the EOC. Each department or service will place into effect their respective plans as time phases elapse and at the direction of the Civil Defense Director.

VI. READINESS CONDITIONS

A. It is assumed that the course of international events will continue to produce critical situations which require governments (State and local) to adopt certain precautionary measures. Under the conditions of tension created by such situations, the various elements of Yolo County Government (County Departments and Cities), in accord with their Civil Defense responsibilities, will respond to the following standardized procedures which will enable the elements of County and City government to:

1. Make a step by step transition from normal operations to whatever degree of readiness required to meet the situation.
2. Make the transition in a uniform manner at every level of Civil Defense.
3. Respond automatically and fully without the issuance of detailed instructions.

B. READINESS CONDITIONS, numbered inversely from FOUR through ONE are established. Each condition requires specific action in connection with a probable situation. Included are reactions to varying of international tension and danger. Notice of the transition from one READINESS CONDITION to another will be disseminated by the Governor or his designated representative. The announcement of CONDITION THREE and CONDITION TWO will be made initially over the DOJ teletype network and followed by official announcements through the news media. CONDITION ONE will exist automatically upon dissemination of attack warning information or upon proclamation by the Governor.

READINESS CONDITIONS

A. CONDITION FOUR

This condition is in effect during the normal peacetime situation under which there appears to be no immediate threat of a war and civil defense organizations are concerned primarily with the development of the operations readiness program, including a program to cope with natural disaster and accident and man-made disasters. State and local governments operate in a normal manner, giving first priority to their peacetime statutory responsibilities and obligations.

All agencies should conduct emergency planning and training consistent with their emergency responsibilities.

B. CONDITION THREE

This condition will be announced by the Governor, or his representative, when in his opinion it will be prudent to assume a status of increased readiness in government, but will not involve the formal "alerting" of the general public.

C. CONDITION TWO

This condition will be announced by the Governor, or his representative when in his opinion the emergency organizations of State and local governments and the public should take additional specific precautionary measures in preparation for a war emergency. CONDITION TWO is indicated by an international situation created by actions on the part of a potential enemy, or United States reactions, which by their nature appear to contain great risk of general war.

D. CONDITION ONE

This condition will be announced by the Governor, or his representative, when in his opinion it would be prudent to assume a complete state of readiness for an impending war emergency. CONDITION ONE would be based on official advice from the Federal Government. This advice could come in the form of Strategic Warning that general war appears inevitable. Under this condition the Governor will proclaim a "state of extreme emergency" to permit the full mobilization of emergency staffs and to make the transition to a wartime footing prior to the outbreak of hostilities which could occur with little or no warning.

PRESCRIBED ACTIONS - CONDITION FOUR

A. Local Government

1. Improve emergency organizations
2. Revise and update operational plans
3. Participate in tests, exercises, and training courses
4. Improve shelters and shelter plans; and
5. Take any other feasible actions to improve operational readiness.

PRESCRIBED ACTIONS - CONDITION THREE

A. Local Government

Local CD organizations should take as a minimum the below listed precautionary measures and any other actions deemed appropriate in their respective situations.

1. Cancel existing or planned staff leaves of absence
2. Check public alerting and warning systems
3. Arrange for checks of all special emergency equipment
4. Check serviceability of existing communication systems and arrange for planned augmentation.
5. Brief local governmental officials and employees on the situation
6. Examine staff organization for readiness to function
7. Discontinue projects and programs that cannot be quickly completed and place priority on activities to increase operational readiness
8. Establish an Information Service capable of answering public inquiries and
9. Advise the public to continue most of their normal activities and, at the same time:
   a. Review personal and family survival plans.
   b. Assure the adequacy of on-hand stocks of food, water

and other necessities; and

c. Keep informed of the developing situation and comply with all official directives issued by their respective local governments.

PRESCRIBED ACTION - CONDITION TWO

A. Local Government

1. Place cadre staffs on 24-hour duty at EOCs and other control centers, keeping remainder of staffs on standby alert
2. Take necessary action to assure public's accessibility to all shelters
3. Keep the public informed and advised
4. Continue or initiate, as appropriate, the actions prescribed for READINESS CONDITION THREE: and
5. Report operational status to next higher level of Civil Defense Organization. The initial report should be made as soon as the above actions have been initiated, and at 1200 and 2400 hours, thereafter.

B. CONTINUITY OF LOCAL GOVERNMENT

Individuals designated as alternates or standby successors to key local offices or positions should prepare to take shelter. Each person so designated should carry positive identification and proof of official status.

PRESCRIBED ACTIONS - CONDITION ONE

A. Local Government

Become fully operational at EOCs and conduct operations in accordance with the provisions of the California Civil Defense and Disaster Plan and Civil Defense Operational Plan for local governments.

NOTES—Delete this clause if only Series A bonds are outstanding; repeat this clause for each series subsequent to Series B.

*Delete if all or remaining bonds are to be issued.

*Delete if only portion of remaining bonds are to be issued.

*Insert amount of TOTAL authorized issue.

SPECIAL NOTES:

Education Code Section 21809 provides that the bonds shall be signed by the chairman of the board of supervisors, "or by such other member thereof as the board of supervisors shall by resolution adopted by a two-thirds vote of all its members, appoint and designate for that purpose". If it is desired to have the bonds signed by such member rather than the chairman, then the Resolution and Order, and the bond form, should be changed accordingly, and the Resolution and Order must be adopted by such four-fifths vote.

Education Code Section 22031 provides for redemption of school bonds prior to their maturity at the option of the governing board of the school district. The prescribed statutory procedure and the wide diversity of possible redemption provisions render impracticable a general printed form for such matters. It is therefore suggested, should redemption provisions be desired, that competent financial and legal advice be first obtained.

This form is for use only when the principal amount of any issue has been divided into two or more series and a series subsequent to Series A is being issued. If the bonds being issued are Series A use Form No. 5015 A instead of this form. If the issue has not been divided into two or more series use Form No. 5015.

NOTES—[1]Delete this clause if only Series A bonds are outstanding; repeat this clause for each series subsequent to Series B.

[2]Delete if all or remaining bonds are to be issued.

[3]Delete if only portion of remaining bonds are to be issued.

[4]Insert amount of TOTAL authorized issue.

SPECIAL NOTES:

Education Code Section 21809 provides that the bonds shall be signed by the chairman of the board of supervisors, "or by such other member thereof as the board of supervisors shall by resolution adopted by a four-fifths vote of all its members, authorize and designate for this purpose." If it is desired to have the bonds signed by such member rather than the chairman, then the Resolution and Order, and the bond form, should be changed accordingly, and the Resolution and Order must be adopted by such four-fifths vote.

Education Code Section 22051 provides for redemption of school bonds prior to their maturity at the option of the governing board of the school district. The prescribed statutory procedure and the wide diversity of possible redemption provisions render impracticable a general printed form for such matters. It is therefore suggested, should redemption provisions be desired, that competent financial and legal advice be first obtained.

This form is for use only when the principal amount of any issue has been divided into two or more series and a series subsequent to Series A is being issued. If the bonds being issued are Series A use Form No. 5015-A instead of this form. If the issue has not been divided into two or more series use Form No. 5015.

NOTES—Delete this clause if only Series A bonds are outstanding; repeat this clause for each series subsequent to Series B.

*Delete if all or remaining bonds are to be issued.

*Delete if only portion of remaining bonds are to be issued.

*Insert amount of TOTAL authorized issue.

SPECIAL NOTES:

Education Code Section 21809 provides that the bonds shall be signed by the chairman of the board of supervisors, "or by such other member thereof as the board of supervisors shall by resolution adopted by a four-fifths vote of all its members, authorize and designate for that purpose". If it is desired to have the bonds signed by such member rather than the chairman, then the Resolution and Order, and the bond form, should be changed accordingly, and the Resolution and Order must be adopted by such four-fifths vote.

Education Code Section 22551 provides for redemption of school bonds prior to their maturity at the option of the governing board of the school district. The principal monetary consequence and the wide diversity of possible redemption provisions render impracticable a general printed form for such matters. It is therefore suggested, should redemption provisions be inserted, that competent financial and legal advice be first obtained.

This form is for use only when the principal amount of any issue has been divided into two or more series and a series subsequent to Series A is being issued. If the bonds being issued are Series A use Form No. 3013-A instead of this form. If the issue has not been divided into two or more series use Form No. 3015.

THIS AGREEMENT made as of _____, 1965, by and between the Counties of the State of California which are signatory hereto and are hereinafter referred to collectively as "the Counties",

WITNESSETH:

The Counties, in the joint exercise of their powers, do hereby agree as follows:

1. General Purposes of This Agreement. Any other County in the State of California may become a party hereto as an associate member of the Association upon approval thereof by the Board of Directors and upon compliance with such conditions as the Board of Directors may prescribe.

11. Withdrawal of Counties: Termination.

(a) Any County may at any time, by resolution of its Board of Supervisors, withdraw from this agreement by written notice to the Association and to the Board of Supervisors of each of the remaining Counties, but such withdrawal shall not terminate this agreement with respect to the remaining Counties.

(b) Upon withdrawal from this agreement, such County shall be under no further obligation to the other parties hereto by reason of this agreement, provided, however, that the County so withdrawing shall be obligated to pay the assessment levied pursuant to Section 8 hereof for the fiscal year in which the effective date of such withdrawal occurs. *NOTE:—The purposes must correspond in every particular with those stated in the election notice.

SPECIAL NOTES:

Education Code Section 21809 provides that the bonds shall be signed by the chairman of the board of supervisors, "or by such other member thereof as the board of supervisors shall by resolution adopted by a four-fifths vote of all its members, authorize and designate for that purpose". If it is desired to have the bonds signed by such member rather than the chairman, then the Resolution and Order, and the bond form, should be changed accordingly, and the Resolution and Order must be adopted by such four-fifths vote.

Education Code Section 22051 provides for redemption of school bonds prior to their maturity at the option of the governing board of the school district. The prescribed statutory procedure and the wide diversity of possible redemption provisions render impracticable a general printed form for such matters. It is therefore suggested, should redemption provisions be desired, that competent financial and legal advice be first obtained.

Education Code Section 22052 authorizes the board of supervisors to divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. If this is done, instead of this form use Form No. 5015-A for Series A and use Form No. 5015-B for any series subsequent to Series A.

*NOTE—The purposes must correspond in every particular with those stated in the election notice.

SPECIAL NOTES:

Education Code Section 25000 provides that the bonds shall be signed by the chairman of the board of supervisors, "or by such other member thereof as the board of supervisors may by resolution adopted by a four-fifths vote of all its members, authorize and designate for that purpose". If it is desired to have the bonds signed by such member rather than the chairman, then the Resolution and Order, and the bond form, should be changed accordingly, and the Resolution and Order must be adopted by such four-fifths vote.

Education Code Section 22001 provides for redemption of school bonds prior to their maturity at the option of the governing board of the school district. The prescribed statutory procedure and the wide diversity of possible redemption provisions render impracticable a general printed form for such matters. It is therefore suggested, should redemption provisions be desired, that competent financial and legal advice be first obtained.

Education Code Section 22002 authorizes the board of supervisors to divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. If this is done, instead of this form use Form No. 5015-A for Series A and use Form No. 5015-B for any series subsequent to Series A.

COURTHOUSE
WOODLAND, CALIFORNIA

GENTLEMEN:

ON AUGUST 12, 1963, AN INSPECTION WAS MADE OF AN AREA IN THE COUNTY OF YOLO, WHICH IS MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEGINNING AT THE SOUTHWEST CORNER OF THE GORDON GRANT, ALSO KNOWN AS RANCHO GUESISOSI, COUNTY OF YOLO, STATE OF CALIFORNIA, AND EXTENDING THENCE ALONG THE SOUTH LINE OF SAID GRANT, S. 79° 33' E. 374.70 FEET; THENCE S. 10° 15' W. 50.00 FEET TO THE SOUTH LINE OF CALIFORNIA STATE HIGHWAY 50; THENCE ALONG THE WESTERLY LINE OF THAT PROPERTY DISTRIBUTED TO FREDERICK EASTHAM, ET. AL. BY DECREE, DATED MARCH 4, 1929, IN BOOK 4, OFFICIAL RECORDS, PAGE 317, S. 27° 44' 40" W. 293.57 FEET TO A PROPERTY CORNER IN THE SOUTH LINE OF BLOCK 1, TOWN OF MADISON, AS DEPICTED ON THE OFFICIAL PLAT THEREOF, FILED IN BOOK V OF DEEDS, PAGE 417, YOLO COUNTY RECORDS; THENCE ALONG SAID SOUTH LINE OF BLOCK 1, N. 79° 33' W. 141.00 FEET TO THE EASTERLY LINE OF THAT PROPERTY CONVEYED TO WALTER FOSTER, AND WIFE, BY DEED DATED MARCH 8, 1927, RECORDED IN BOOK 114 OF DEEDS, PAGE 4, YOLO COUNTY RECORDS; THENCE ALONG SAID PROPERTY LINE S. 37° 46' 50" W. 59.36 FEET TO THE SOUTHEAST CORNER THEREOF; THENCE ALONG THE SOUTH LINE OF SAID PROPERTY AND THE WESTERLY EXTENSION THEREOF, N. 79° 33' W. 228.00 FEET TO THE EAST LINE OF RAILROAD STREET; THENCE ALONG THE EAST LINE OF RAILROAD STREET, S. 10° 15' W. 1302.3 2 FEET TO THE SOUTH LINE OF HURLBUT STREET; THENCE ALONG SAID LINE OF HURLBUT STREET, N. 79° 45' W. 1500.00 FEET TO THE WEST LINE OF TUTT STREET; THENCE ALONG THE WEST LINE OF TUTT STREET, AND THE NORTHERLY EXTENSION THEREOF, N. 10° 15' E. 1690.60 FEET TO THE NORTH LINE OF SAID STATE HIGHWAY 50; THENCE ALONG SAID HIGHWAY LINE S. 79° 33' E. 1610.00 FEET TO THE POINT OF BEGINNING AND INCLUDING 61.81 ACRES OF LAND.

AS ON PREVIOUS OCCASIONS THE FOLLOWING CONDITIONS WERE OBSERVED:

1. SEWAGE WAS OVERFLOWING AREAS THROUGHOUT THE AREA ABOVE DESCRIBED IN AN ESTIMATED TWELVE PLACES IN VIOLATION OF SECTION 4476, 5410G AND 5411 OF THE HEALTH AND SAFETY CODE OF THE STATE OF CALIFORNIA AS WELL AS ORDINANCE #374 OF THE COUNTY OF YOLO.

2. THE AREA ABOVE DESCRIBED IS SUPPLIED WITH WATER FROM A WELL WHICH IS SHALLOW AND THUS EASILY SUBJECT TO SEWAGE CONTAMINATION.

3. THE SOIL IN THE AREA IS DESIGNATED ON THE SOIL MAP AS CAPAY CLAY, AN ESPECIALLY HEAVY AND IMPERVIOUS CLAY.

IN ADDITION TO THESE FINDINGS IT IS KNOWN THAT THE WATER TABLE IN THE AREA IS EXCESSIVELY HIGH AND IN YEARS OF HEAVY RAINFALL IT MAY RAISE ALMOST TO THE SURFACE. INDIVIDUAL BUILDING LOTS, IN GENERAL, ARE ONLY TWENTY-FIVE (25) FEET IN WIDTH THUS MAKING IT NECESSARY THAT SEVERAL BE AVAILABLE FOR THE BUILDING OF A HOME. THIS USUALLY RESULTS IN VERY SMALL AREAS FOR DISPOSAL OF SEWAGE EFFLUENTS. AS A RESULT OF THE TYPE OF SOIL AND THE LIMITED AREA FOR DISPOSAL, SEPTIC TANKS FUNCTION POORLY IF AT ALL.

AS YOLO COUNTY HEALTH OFFICER, I THEREFORE RECOMMEND AS A NECESSARY HEALTH MEASURE THAT THE HONORABLE BOARD OF SUPERVISORS INSTITUTE PROCEEDINGS UNDER APPROPRIATE STATUTORY PROVISION FOR THE CONSTRUCTION OF SANITARY SEWERS FOR THE AFORESAID AREA TO ABATE THE UNSANITARY CONDITIONS.

THIS REPORT AND RECOMMENDATION IS SUBMITTED PURSUANT TO SECTION 2808 OF THE STREETS AND HIGHWAYS CODE OF THE STATE OF CALIFORNIA.

SINCERELY,

Herbert Bauer
